About Us

“Crafting Confidance One Strand At A Time”

Hair N' Bloom Extensions & Co. was created with one purpose: to elevate the standard of professional hair extensions for hairstylists who demand excellence. Our brand was born out of a simple but powerful frustration — the struggle to find high-quality extensions that delivered consistency, longevity, and true value.

After ordering from countless manufacturers and spending over a year and a half testing, comparing, and refining, we finally found the quality that met our expectations. As stylists, we know the disappointment of receiving hair that doesn't match the price, the texture, or the promise. We know what it feels like to invest in products that don't support the level of artistry we bring to our clients.

Bloom Extensions & Co. exists to change that. Our extensions are crafted exclusively for hairstylists — professionals who deserve reliable, luxurious hair that performs beautifully for months. We focus on sustainability, consistency, and premium quality so stylists can offer their clients the best without sacrificing profit or peace of mind.

This brand is more than hair. It's a commitment to craftsmanship, integrity, and the stylists who bring beauty to life every day.

Veronica Ortega is the heart and vision behind Bloom Extensions & Co. With 17 years of experience as a professional hairstylist and more than five years specializing in hair extensions, she has built her career on dedication, artistry, and an unwavering commitment to excellence.

Her journey through the beauty industry has shaped her into a stylist who not only masters her craft but also elevates it. Throughout her career, Veronica trained and became certified with multiple extension brands, gaining a deep understanding of quality, technique, and the challenges stylists face when working with inconsistent products. After years of navigating those frustrations herself, she made the bold decision to create something better — a brand that reflects her standards, her values, and her belief that stylists deserve products they can trust.

Her resilience and passion have not gone unnoticed. Veronica was featured in Style Magazine of Lake County as an extraordinary individual, recognized for her story of perseverance and her message that even when life brings storms, there is always a rainbow waiting afterward. That philosophy is woven into everything she creates.

Today, Veronica stands proudly as a solo artist and educator, committed to empowering other stylists with the knowledge, confidence, and tools they need to thrive. Bloom Extensions & Co. is her way of giving back to the industry that shaped her — offering premium, reliable extensions designed by a stylist, for stylists.
